Adding Additional Children

If you have more than one child at school, they can easily be added to the Parent Portal. Once you are logged into the Parent Portal, select "Manage Students" from the menu.

You will see any children you have already linked in Synergy. Select "Link another student".

Use the code from your child's registration letter and their date of birth to add children to your account.

Please note that student codes are unique and can only be registered to the parent/carer specified. They cannot be shared or given to another person. Contact your school if you have not been issued with a code for your child.

Once added, they will appear on the main Parent Portal menu bar.
